

## seca 882 – digital floor scale with cable remote control

With its cable remote control for handheld table or wall mounting, the battery-operated seca 882 is an extremely flexible, all-purpose scale. In particular, its BMI function for calculating Body Mass Index or the pre-set limit value function predestine this scale for use in the health care sector. For example, with the pre-TARE function, the weight of a bathrobe can be deducted in order to determine the net weight.

- Capacity: 400 lbs / 180 kg
- Graduation: 0.2 lbs < 330 lbs > 0.5 lbs / 100 g < 150 kg > 200 g
- Functions: Automatic switch-off, pre-TARE, TARE, HOLD, BMI, limit value, damping, lbs/kg/sts switch-over
- Energy-saving: Up to 80,000 weighings per battery set
- Optional: RS232 adapter set seca 460, stand for cable remote display seca 472, transport case seca 421
