seca 984 – digital bed and dialysis scale with equipment trolley

Always in use: the seca 984 facilitates the easy, gentle and precise weighing of bedridden patients and is an indispensable aid in dialysis and intensive-care. With the integrated lifts, four measuring platforms can be placed easily and effortlessly under the castors of the bed. The previously determined weight of the bed is deducted using the pre-TARE function and the patient’s precise weight is determined. In the event of a power failure, the scale stores all previously displayed values using rechargeable batteries. When not in use, the four bed lifts can be stored on the equipment trolley.

- Capacity: 1,100 lbs / 500 kg
- Graduation: 0.2 lbs < 440 lbs > 0.5 lbs / 100 g < 200 kg > 200 g
- Functions: TARE, HOLD, BMI, critical value, damping, lbs/kg/sts switch-over
